PROSPECTUS

WORLD IS **TRANSFORMING**

From Principal Desk

The studentship is the golden period in one's life span, and it provides a strong foundation to the building of life. The new generation does not know where to go and what to do. Such problems are more or less global. The world today is suffering from skepticism in belief and anarchy in morals. Frustration, irritation and hatred have become headlines today in place of love and peace.

The purpose of education in BIS is to develop humane and sensitive citizens; we ensure that a congenial environment for learning is maintained while making sure that children have enough opportunities to develop their personal and interpersonal skills.

Catering holistic approach of education we pride ourselves on creating a culture of learning where students are free to explore their interests in a variety of fields while developing their character as well. Wonderful infrastructure, playground, high tech classroom, well equipped Lab, Library and modern computer center to ensure the child will get proper knowledge under supervision for well trained and experienced teaching staff. With extra-curricular classes, strong emphasis on soft skills and activities meant to foster cultural understanding, the students of our school emerge as elucidated and responsible citizens of the world.

BIS is committed to growth, innovation and maintaining high standards of educational programmes mended with Djibouti cultural heritage. Here we encourage our students to dream beyond horizon and the school enjoys a sensed of freedom of mind and spirit thus turning school education into an enjoyable to experience for everyone.

INTRODUCING

First Islamic school with English medium in Djibouti, with International Cambridge Syllabus.
Where every child will be star.

INTRODUCTION

La première école islamique avec l'anglais comme langue scolaire a Djibouti, avec un programme international de Cambridge, où chaque enfant sera une star.

OUR PEDAGOGY

After syllabus and curriculum it is Pedagogy which plays important role in the education process. Pedagogy is nothing but style of educating students by educators. Due to social, technological and behavioral changes and the revolution in digital media, the new paradigm in education has emerged. BIS follows integrated approach of educating students with Multidisciplinary method of Pedagogy. The objective of this method is to immerse students in knowledge with high degree of cognitive skill. Thus students of BIS will be prepared to compete in national and international competitions.

The system is child-centered and potential based. Every child is considered here. His/her potentials are assessed and accordingly he/she is educated.

NOTRE PEDAGOGIE

Après les programmes, c'est la pédagogie qui joue un rôle important dans le processus d'éducation. La pédagogie n'est autre que le style d'éducation des instituteurs pour les élèves. En raison des changements sociaux, technologiques, comportementaux et de la révolution des médias numériques, le nouveau paradigme est l'éducation.

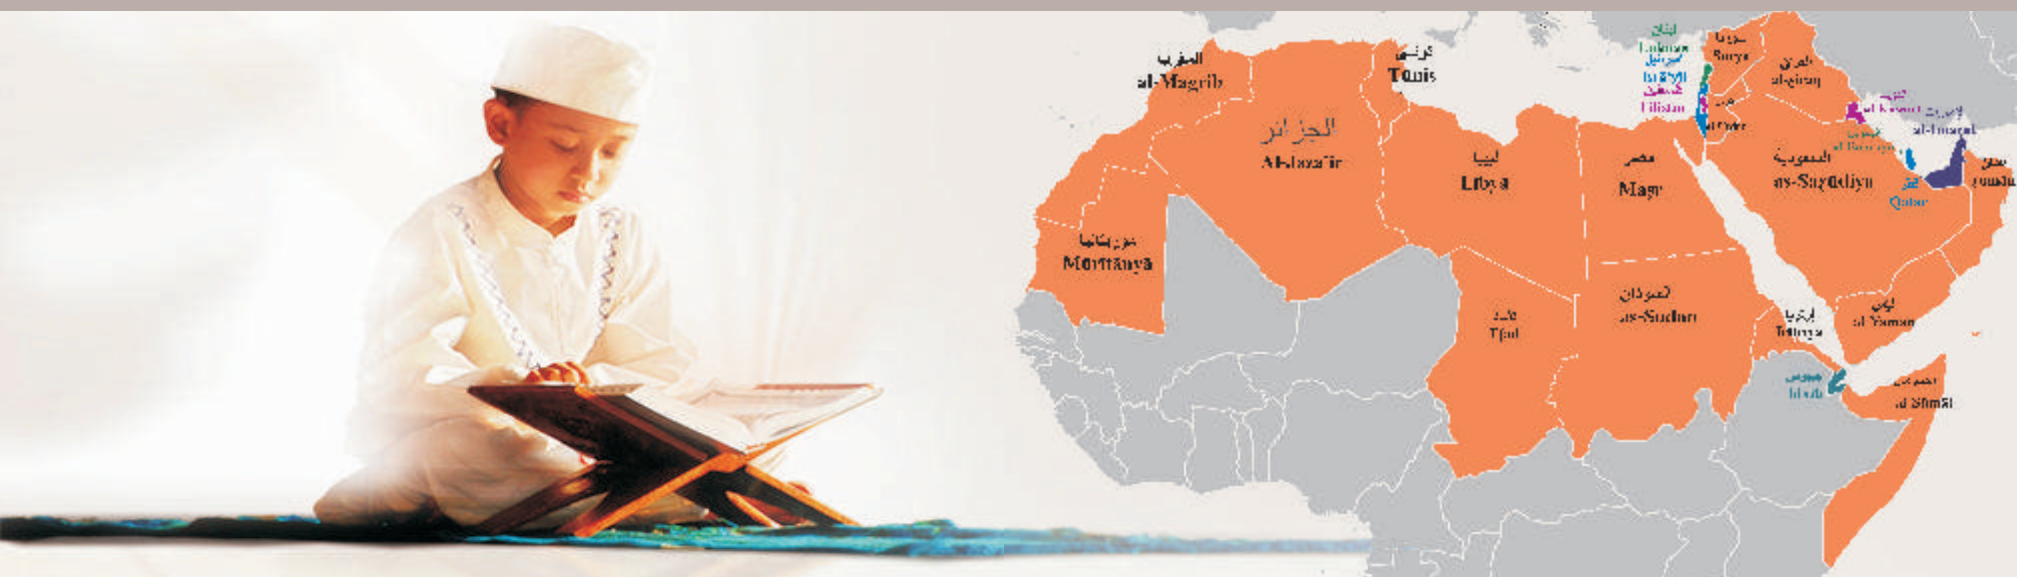

BIS suit une approche d'éducation intégrée des étudiants avec une méthode multidisciplinaire. L'objectif de cette méthode est d'immerger les étudiants dans des connaissances hautement cognitives. Ainsi, les étudiants de BIS seront prêts à participer à des compétitions nationales et internationales.

Le système est centré sur l'enfant et basé sur le potentiel. Chaque enfant est considéré et ses potentiels sont évalués en conséquence.

ISLAMIC STUDIES/ARABIC LANGUAGE

We offer a broad and balance Islamic curriculum only for Muslim students. Islamic studies includes reading of holy Quran with Tajweed, Hifdh, memorization of Surah, Dua & Hadith, practical of common Sunnah which is used in day to day life. The purpose of Islamic studies to produce responsible and productive citizen who will confidently engage within society, whilst presenting a positive image of their Islamic personality.

Learning Arabic language is compulsory for all faith of students. Arabic is world's 2nd largest spoken language and as a educator we believe that Learning another language is not only learning different words for the same things, but learning another way to think about things.

ÉTUDES ISLAMIQUES / LANGUE ARABE

Nous proposons un programme islamique large et équilibré réservé aux étudiants musulmans. Les études islamiques comprennent la lecture du Coran avec Tajweed, Hifdh, la mémorisation de la sourate, du dua et du hadith, pratique de la sunnah courante utilisée dans la vie quotidienne. Les études islamiques ont pour objectif de produire un citoyen responsable et productif qui s'engagera en toute confiance dans la société tout en présentant une image positive de sa personnalité islamique.

Apprendre la langue arabe est obligatoire pour tous les étudiants de confession musulman ou non. La deuxième langue parlée dans le monde est l'arabe. En tant qu'éducateur, nous pensons que l'apprentissage d'une autre langue ne consiste pas seulement à apprendre des mots différents pour les mêmes choses, mais une autre façon de penser.
